Number 3

Thirty-Five Co-op Engineers Enroll For Fall Quarter

Thirty-five students are enrolled in the cooperative engineering scholarship program this quarter, according to Professor James O. Jones, head of the Engineering Department.

The co-op program is a scholarship program in that it aids in financial assistance to the student. The co-op student alternates between school and work on a quarterly basis. To stay on the program, the student must maintain a 2.75 average. This is the highest requirement for co-op in any university in the country, Professor Jones said.

To date 64 freshmen have applied for admission to the program. Final date for acceptance of applications this quarter is October 23.

The students are employed in various places all over the South. Students working this quarter include civil engineers Billy W. Allen, Jackson Utility Division, Jackson; Johnny Goins, Tennessee Valley Authority; Mike Penick, Forcum-Lannom Construction Company, Dyersburg.

Electrical engineers are: William B. Batte, Memphis Light, Gas and Water Division, Memphis; Harvey Wilmoth, Memphis Light, Gas and Water Division; Terry Moore, Nashville Electric Service, Nashville; J.W. Kemple, Langley Field National Aeronautics and Space Administration; Jimmy Reagor, Jackson Utility Division, Jackson; and Richard Riker at the George C. Marshall Company.

Mechanical engineers include James C. Cavender, Arnold Engineering Research Organization Developing Center, Tullahoma; Larry Daniel, E. I. DuPont Nemours and Co., Inc., Aiken, South Carolina; Michael Walker, Union Carbide Nuclear Company, Paducah, Ky.; Gerald Morris, TVA; and Richard Phillips, TVA.

Chemical engineers are: Freeman Blackburn, NASA, Huntsville, Ala.; Donny Traywick, Tenn. Department of Public Health, Nashville; T.A. Lumpkin, TVA; Larry Delashmit, Colonial Rubber Works, Dyersburg; and Joel Hill, Dupont Company, Aiken, South Carolina.

Robert Moore is working as a nuclear engineer at the Dupont Company and William M. Farmer as an engineering physicist at AERO in Tullahoma.

Students enrolled in the co-op program attending UTMB this quarter are civil engineers John B. Chambers and Willard Horn; electrical engineers Billy J. Leeper and James C. Daniel; chemical engineers Robert A. Head, James W. Scott and Larry B. Watkins; mechanical engineers William C. Moore and Charles Slover; engineering physicists Carrol Lashlee and William D. McFadden. Leslie Ann Freeman is enrolled as an industrial engineer.

South Fulton Seniors Will Visit Classes On UTMB Campus Oct. 23

Approximately 47 high school seniors from South Fulton High School will be visiting the University of Tennessee Martin Branch campus, Wednesday, October 23, according to Professor H.C. Allison, coordinator of a new visitation program for high school seniors.

This is the first of a series of such visitations from seniors in West Tennessee.

Co-eds firing with the newly formed UTMB Rifle Team are (l. to r.) Pat McAlpin,

Joyce Campbell, and Julia Lewis.

Enrollment In Extension Division Sets New Record

Enrollment for The University of Tennessee Martin Branch extension program has reached an all time high this year, according to Dr. W. H. Baker, head of the Department of Business Administration.

The total enrollment for all the classes is 132 courses currently being offered are: Math 111, Accounting 211, Industrial Management 301, Accounting 321, Mechanical Engineering 121, Engineering 121, Engineering Problems 123, Economics 211 and IBM 431. Courses materialize only when sufficient demand is apparent.

Although this program is primarily designed for adults, several college students are enrolled in the classes.

Several large industrial firms are sending their personnel to these night classes. For example, the Century Electric Company of Humboldt has 15 employees enrolled. Such firms as the Wayne Knitting Mills in Humboldt; American Metals of Union City; Harvey Aluminum Company and I. T. T. Kellogg Company of Milan, and the Greenfield Manufacturing

Company of Greenfield, use the services of the Extension Center rather frequently.

The Martin Extension Center was established as a request of a conference between the Dean of Extension of U-T, Dr. Paul Meek, Dr. W. H. Baker and George Stevens, director of continuing education on 1953.

The Martin Center is one of the five centers in the state. Others are located in Nashville, Memphis, Knoxville and Oak Ridge.

The Dyersburg Chamber of Commerce will have representatives on the campus Thursday, October 24, to talk to Dr. W. H. Baker about extension teaching in the Dyersburg area.

Classes meet three hours weekly and the cost is \$8 per credit hour.

Dr. Andrew D. Holt Will Speak Here

Dr. Andrew D. Holt, president of the University of Tennessee, will be on the UTMB campus Thursday, November 14, to take part in dedication ceremonies for four new buildings and to participate in an education rally that night.

Dedication exercises will be held in the New Physical Education Building November 14 at 3 p.m., for that building, the Women's Residence Hall, the Engineering-Physical Sciences Building, and the Heating Plant.

Wayne Fisher, chairman of the Martin Branch Board of trustees, will present the facilities to Dr. Holt and he will accept them.

Classes are to be dismissed between 3 and 4 p.m. for the dedication ceremonies.

At 7 o'clock in the evening, there will be a dinner meeting and program appropriate to an education rally sponsored jointly by the Weakley County Chamber of Commerce and UTMB.

The primary purpose of the rally is to present an opportunity for President Holt to express to West Tennessee legislators education's gratitude for the provisions made for education at the 1962-63 General Assembly.

This recognition also includes the county-wide Chamber of Commerce for the job in giving the University's Martin Branch. Scholarship donors and stadium committees will be especially honored, and other guests will be presented.

Dr. Meek Names New Committee

A new Committee on Committees has been created at The University of Tennessee Martin Branch, according to Dr. Paul Meek, vice president.

Dean H. B. Smith and Dean Norman Campbell were appointed by the vice president to represent the administration.

Four members of the committee were elected by the faculty. They are Paul Foote, Dr. Leon Lantz, Dr. Lois P. Lord, and E. W. Culvahouse.

This committee will set up a chairman of each of the various committees of the faculty. The individual chairman in turn will make recommendations to the committee for personnel.

The purpose of the committee is to give the faculty more voice in administrative affairs, according to Dr. Meek.

Only 88 Students Are Out-of-Staters

Geographical distribution of UTMB students shows 1,381 Tennesseans at the University of Tennessee Martin Branch, according to Mrs. Myrtle H. Phillips, registrar.

Of the Tennesseans 1,220 are from West Tennessee, 147 from Middle Tennessee and 12 from East Tennessee.

There are 87 out-of-state and one foreign student from Iran.

Classifications show four special students, 18 part-time, one unclassified and 1,446 freshman, sophomores, juniors and seniors carrying a full program of studies.

A total of 130 students are enrolled in extension classes, bringing the total to 1,599.

Thirty-Three Students Enrolled For Bus. Ad.'s Course In IBM

Thirty-three members are presently enrolled in the IBM course now offered at the University of Tennessee Martin Branch.

This course is open to all juniors, seniors and faculty members at the university. It has also been popular with the extension program. In addition, the secretarial personnel are urged to take the course.

The three hour IBM course includes training in programming, key punching, assorting, reproducing and operating punch card equipment, machines and tabulators, according to Carl D. Savage, assistant professor of officer administration.

The Business Department

ASA Schedules Social Events At Campus Meet

Dates for upcoming social events at The University of Tennessee Martin Branch were set at the first ASA On-Campus Retreat for the 1963-64 school year held October 15.

Saturday night, October 26, Phi Sigma Kappa has scheduled a closed social.

October 29, a concert is to be presented by the Rondoliers, Male Trio. This concert is sponsored by the Mutual Concert Association.

The annual Women's Dorm Halloween Party will be held Thursday night, October 31.

November 2, Alpha Delta Pi is having a closed social.

November 8, is reserved for the Grenadiers Club.

The Student National Education Association will have a closed banquet and open dance on November 9.

November 15 is the date set for the annual Engineers' Ball.

Chi Omega has a closed banquet slated for November 16.

"Wonderful Town," the Vanguard - Chorus production will be presented November 19-22.

Three of the fraternities, Pi Kappa Alpha, Phi Sigma Kappa and Alpha Gamma Rho, are planning closed socials for the night of November 23.

A student recital will be presented Tuesday November 26.

December 3, is the date set for the Choralairs-Girls Ensemble Christmas Program.

The annual Christmas Dance sponsored by the sophomore class is set for the night of December 6.

A dance sponsored by the T-Club will be held after the Lambuth ball game on the night of December 7.

December 8 the Chorus will present the annual Christmas Oratorio.

Phi Sigma Kappa is planning a closed social December 14 and the Alpha Tau Omega closed dinner dance will be held the same night.

December 19, the Christmas Holidays begin.

50 BSU'ers To Attend State Convention Nov. 1

Approximately 50 students have submitted their names to attend the State Baptist Student Union Convention at Clarksville, Nov. 1-3, according to John Billington, BSU director.

The convention is open to all students on UTMB campus. The BSU has set a goal of 70 students to attend. Cost is \$6, plus food expenses.

If anyone is interested, he should contact Peggy Smith or Dan Blair. The deadline for signing up is 2 p.m. Tuesday, Oct. 27.

plans to add a callator and interpreter in the near future. This addition will provide the department with a complete punch card installation, Mr. Savage said.

Several students who took the IBM test in the spring quarter have been placed in business institutions that have punch card installations.

In the business office this installation has been very advantageous. Much time has been saved in the printing of the military deposit list, annual list, cafeteria list, and dormitory lists. Also, there is the advantage of accuracy in this process, according to Tom Whitesides, assistant business manager.

Wanna Dance?

Barnwarmin' or rather the new Homecoming Dance this year was a big success.

Approximately 150 couples attended. The band was good; the atmosphere was clear and everybody there seemed to have a good time.

The dance at the Strata Club was also a reported success. There was supposedly a tremendous crowd, and although the atmosphere was slightly different from that at the Old Gym those there enjoyed themselves.

The point of this is that perhaps the favorable response to both dances indicates that our campus is growing big enough to have two dances simultaneously.

That way the Homecoming Dance could go back to Barnwarmin' and students who prefer to dress casually and drink cider for refreshments could have their dance. Those who prefer to dress more formally and have a more sophisticated party could continue to have their own, which should be sponsored by the University, as is Barwarmin'.

It seems that this would be one of the simplest ways to satisfy the majority of the students. Some of those who were so much in favor of changing Barnwarmin' to a semiformal Homecoming dance honoring the football royalty and team, which was done, didn't attend. Those who did attend the Homecoming Dance at the gym promptly shed their suit coats and high heels indicating that they would prefer more comfortable casual dress. So wouldn't the simplest thing be to go ahead and have two dances under proper chaperonage and please students on both sides of the line?

James Wayne McKee Appointed Haywood County Assistant Agent

James Wayne McKee, who received his bachelor of science degree from U-T in 1959, has been appointed assistant county agent in Haywood County. Prior to this appointment, he was employed by the U.S.D.A. in Battle Creek, Michigan.

Bill Cook and Tom Hendrix are engaged in the manufacturing and the sales of school supplies in Springfield.

Dolores LeCornu Archie, UTMB '61 from Milan, received her master's degree from George Peabody College for Teachers August 17, 1963.

Philip Vernon Adcock, UT MB '59 from Whites Creek, received his master's degree from Middle Tennessee State College August 23, 1963.

Harold and Jeanne Lile of Covington are the parents of a daughter, Amy Faye, born March 16.

Air Force Issues Call For College Graduates

The Air Force faces a tremendous and growing need for young college graduate Officer Trainees, according to Lt. General James E. Briggs, Commander of Air Training Command.

College seniors who desire additional information concerning a career as an Air Force Officer may contact Captain Abbey at the Student Center UTMB October 23.

Mr. and Mrs. J. C. Doyle (Carolyn Coates '55) are the parents of a daughter, Rebecca Lynn, born July 31.

David and Joyce Henderson are the parents of a daughter, Alonda Joyce, born July 31.

Stanley Wills, UTMB '52 associated with Packers and Stockyard Division USDA, Memphis, was a recent visitor on campus.

Harry Kroll Jr., teacher of chemistry and physics in Bear-don High School at Knoxville, was a recent visitor on campus.

Glisson Elected Queen at Sewanee

Carol Glisson, sophomore at The University of Tennessee Martin Branch, was named Homecoming Queen at The University of the South, Sewanee, last Saturday.

Carol was nominated by Kappa Sigma fraternity. She was nominated to the fraternity by Allen Strawbridge, Jr. of Dresden. Each of the ten fraternities on the Sewanee campus nominated a candidate for queen, and Carol was selected by a panel of judges.

Carol, who is enrolled in Liberal Arts, is a UTMB cheerleader, campus beauty ROTC sponsor, and honor roll student. She is a member of Chi Omega sorority.

Shoe Survey Yields Data For O. A. 431

Girls, do you use Gillette blue blades?

Last week a "character" was perched on a bench in front of the girls' dorm supposedly observing shoes, but his line of sight seemed to be above the ankles. He stated that his assignment was extremely interesting and he would enjoy making more complete observation.

While this "character" was enjoying his observations, curious females posed numerous questions concerning this innocent activity. "What are you staring at?" or "What are you doing?" were two of the most asked questions.

The foxy surveyor frequently replied that he was making an observation for the Gillette blue blade company.

The truth is that he was doing research for a class assignment concerning preference in style, color, height of heel and material of shoes. He classified these preferences according to three different type of dress.

Girls who wore casual dress seemed to prefer black loafers with their second choice being brown loafers. Girls dressed in classroom wear seemed to like black flats with their second choice being brown flats. Various colors of flats and sneakers were also observed.

This observation was not complete because of the fact that all variables, such as time of day, and present activities could not be controlled.

(Boys, this course is OA 431)

Witchery's Afoot Come Halloween

BY PAT CHAMBERLAIN

"Turn your boots toward the street,

"Leave your garters on your feet,

"Put your stockings on your head

"You'll dream of the one you're going to wed."

Yes it's almost here again--that bewitching night Halloween. Are you superstitious? How do you celebrate Halloween?

Halloween in some countries is associated with bonfires, masquerades, and the telling of ghost stories.

Witchcraft was once a common belief in America. It was believed that iron would protect one from witches, especially if the iron was in the shape of a horse shoe.

Another superstitious belief was that if a young girl went into her room at midnight on the fatal eve, sat down before a mirror, and sliced an apple into nine slices and held each slice on her knife before eating it, she might see her future lover through the mirror. He would ask for the last slice of the apple.

Superstitions abound that are too numerous to mention.

The Imps that frolic on holidays now-a-days are chiefly small mischievous boys.

Halloween for most of us is a time of frolic, celebration, and fun. Whatever your superstitions may be or however you may choose to celebrate, I hope that this Halloween will be fun for all of you and I do mean good clean fun and not the kind that involves flag poles.

Dr. Boling Coming Here

Dr. Edward Boling, U-T vice president for development, will be a guest all day, October 29, on campus working with the U-T Martin Branch Development Committee and the other officials on UTMB needs.

AGR Wins Cheerin' Nanny

Alpha Gamma Rho Fraternity won the first Cheerin' Nanny on the UTMB campus Friday night.

Pi Kappa Alpha was second and Chi Omega actives were third.

Delicate Fingers Mold Clay On Potter's Wheel

BY OLIVIA HOLLABAUGH

Have you ever watched a craftsman at work with a potter's wheel?

It is a fascinating process, an exacting and ancient art and one which demands hours of patient labor for one to become its master.

The creation of a beautiful bowl or vase from a grey lump of clay becomes even more amazing when you realize that the one who is producing this object is totally blind.

Such is the case with Susie Dodd. Susie is a native of Alamo. She and her husband Frank G. Dodd of Huntingdon, both UTMB students, were married three years ago. Frank and Susie live in one of the trailers across from the old gym, and he is scheduled to graduate this year with a degree in agriculture. Susie lost most of her sight as result of a serious illness about a year ago. Since last January she has been totally blind.

Since that time Susie, guided by Miss Aaltje Van Denberg, associate professor of arts and crafts of the UTMB Home Economics Department, who works in her free time with a number of other blind people in this area, has continued to work with the various hand crafts which loves so much.

Susie has kept up with crafts in addition to learning to read Braille and a number of other such accomplishments. Last winter as the class in recreational crafts worked with clay Susie fashioned birds, cats, dogs and other animals from the clay, working simply by touch.

But her real experience with the potter's wheel began this summer at Gatlinburg. Each summer the U-T Knoxville crafts department moves to Gatlinburg and sponsors various workshops and courses, for which U-T credits are given. Susie was the first blind person ever to enroll in this particular course and, according to one of her instructors, was the third person who had ever centered the clay on the wheel the first time she threw it.

The process of "throwing a pot" on the wheel is rather difficult to master, even for an individual who can see what he is doing. First the clay is wedged to get the air bubbles out; then a round ball is formed its size depending on the size of the object; the ball must then be centered on the wheel and to do this it is wet on one side and thrown on the wheel, "just as hard as you can throw it," according to Susie.

Then as the wheel rotates the clay is pressed on with the fingers until it feels like a smooth even ball. When it

reaches this point three fingers of the left hand start down in the center of the ball to hollow it out, while the knuckle of the right forefinger is held against the outside of the bowl to brace it. The sides must be pulled up to reach that desired shape as the wheel continues to rotate.

Finally it must be cleaned up, removed from the wheel and dried before the bottom is shaped. When all this is done it is allowed to dry and then fired and glazed.

Susie has been able to continue her work with pottery this fall since the UTMB Home Economics Department has recently acquired a potter's wheel.

It will be used for demonstration purposes and practical classroom experience, according to Miss Van Denburg. The wheel is a needed addition to the equipment of the department.

A potter's wheel in itself has great significance. Not only is it a useful tool, but it is representative of true art and beauty and genuine craftsmanship. The potter and his wheel also have had great religious significance throughout the years. God is likened to the Potter and individuals are his clay. Quite often he works in mysterious ways to shape human personalities into things of beauty.

Her products usually turn out right because as she says cheerfully, "I can feel things other people can't."

Rondoliers Trio To Give Concert Here October 29

The Rondoliers Male Trio will offer something special in the field of concert attraction at The University of Tennessee Martin Branch, Tuesday October 29, at 8 p.m., in the Music Building.

These three outstanding young solo artists combine their talents in a distinguished and varied program of art songs, operatic selections, show tunes, folk songs, and Negro spirituals, with vocal arrangements by Charles Touchette.

Featured will be, Edmond Karlsrud, "a young man with an easy personality and a bass-baritone voice with the depth and polish of a sapphire." A graduate of the University of Minnesota and the Juillard School of Music, Mr. Karlsrud has a record of concert appearances covering 48 states, Mexico, and all the Canadian provinces.

CLUBS AND ORGANIZATIONS:

Sixty-Eight Men Pledged By Four UTMB Fraternities

Sixty-eight men have pledged the four social fraternities on the UTMB campus this fall.

Alpha Gamma Rho pledges include John Argo, Paul Templeton, Ralph Barnett, Randy Thompson, Larry Phillips, Charlie Dover, Thomas Raines, Don Brasfield, Russell Cox, Donald Dodson, Earl Pope, John Roper, Charlie Culver, Johnny Vickers and Bill Whitworth.

Alpha Tau Omega pledges are Joe Clement Harris, Danny Tuck, Terry Smith, Bill Hayes, Steve Brooks, Eddie George, Mike Hanly, Freddy Johnson, Pat Todd, Bobby Gentry, Vernon Postlethwaite, Jimmy Fuller, Gary Moore, Grant McKibben, John Hiscox, Johnny Wise, William Milton, J. B. Glass, Jerry Williams and King Tipton.

Phi Sigma Kappa pledged Earl Parks, Butch Perigan, Bill Moody, Russ Thompson, Lester Jones, Coy Anderson, Ronnie Yeiser, Clay Carter, Kenneth Dicus, John Cloar, Larry Thorton, Phillip Merryman, Edgar Yandell, Don Graves, Roy Meadows and Charles Hale.

Men pledging Pi Kappa Alpha are Jimmy Lynn, Cecil Sherlock, Charles Bell, David Byars, Ralph Day, Doc Watson, Luke Kee, Chip Woodard, David Hogan, Tommy Rainey, Bill Bouldin, Barry Hayes, Ted Sines, Ken Bernerdini, Bobby Dye, Jack Hall and Sid Hunt.

Pi Kappa Alpha

Epsilon Sigma Chapter of Pi Kappa Alpha has begun its year by participating in the Homecoming festivities with members of the fraternity who are on the football team aiding in the victory over Livingston and the float taking first place honors.

Other recent happenings included the election of Brother Jim Newcombe to the cheerleading squad and the publication of the Pike calendars.

Alpha Delta Pi

Glenda Graves was elected president of the Alpha Delta Pi pledge class.

Other officers elected are Melly Jenkins, vice president; Gloria Evans, secretary; Martha Olive, treasurer; Nancy Bivens, reporter; and Sewanna Davidson, song leader.

Alpha Tau Omega

The Alpha Tau Omega Colony is busy preparing for a visit from Stewart D. Daniels, executive secretary of ATO, and Guilbert Brandon, Province VIII chief.

Phi Sigma Kappa

Larry Page was recently elected president of the Tau Tetarton Chapter of Phi Sigma Kappa Alumni Club.

Other officers elected were Jim Zimmerman, vice president and Bob Stephens secretary-treasurer.

Chi Omega

Officers of the Chi Omega pledge class for the fall quarter are Lina Wells, president; Nancy Neilson, vice president; Barbara Johnson, secretary; Pat Drake, treasurer; Polly B. Crawford, song leader.

Church of Christ

Ewing Wray, minister of the Martin Church of Christ, was speaker at the monthly devotion of the Church of Christ Student Group, Monday night, Oct. 14.

Zeta Tau Alpha

Members of Zeta Tau Alpha Sorority contacted faculty members for contributions to the Girl Scout Drive October 11-15.

This was one of the several service projects that will be undertaken this year by the sorority.

Alpha Gamma Rho

The brothers of Alpha Gamma Rho initiated two new members Thursday night.

Daron McNatt and Larry Jolley, members of the Alpha Gamma Rho Colony prior to national Affiliation, were officially taken into the fraternity.

Alpha Gamma Rho won second place in the homecoming float contest. The theme of the float was "Blast the Tigers."

Donna Williams has been elected secretary of Delta Mu Chapter of Zeta Tau Alpha.

WIN

IN THE MARLBORO BRAND ROUND-UP

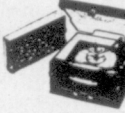

PRIZES:

1ST PRIZE
Beautiful 19" Portable Television by Admiral

2ND PRIZE
Portable Stereophonic Record Player by Admiral

WHO WINS: Prizes will be awarded to any recognized Group or Individual submitting the largest number of empty packages of Marlboro, Parliament, Philip Morris, Alpine, or Paxton Cigarettes.

RULES:

- Contest open to qualified students of UTMB.
- Empty packages of Marlboro, Parliament, Philip Morris, Alpine or Paxton must be submitted in order to qualify.
- Closing date, Tuesday, November 26, 1963. Turn in empty packs at 1:00 P.M. in the Rebel Room. Packages must be in bundles of 100.
- No entries will be accepted after official closing time.

HAPPINESS CAN'T BUY MONEY

With tuition costs steadily on the rise, more and more undergraduates are looking into the student loan plan. If you are one such, you would do well to consider the case of Leonid Sigafos.

Leonid, the son of an unemployed bean gleaner in Straightened Circumstances, Montana, had his heart set on going to college, but his father, alas, could not afford to send him. Leonid applied for a Regents Scholarship, but his reading speed, alas, was not very rapid—three words an hour—and before he could finish the first page of his exam, the Regents had closed their briefcases crossly and gone home. Leonid then applied for an athletic scholarship, but he had, alas, only a single athletic skill—picking up beebies with his toes—and this, alas, aroused only fleeting enthusiasm among the coaches.

And then—happy day!—Leonid learned of the student loan plan: he could borrow money for his tuition and repay it in easy installments after he left school!

Happily Leonid enrolled in the Southeastern Montana Col-

lege of Lanolin and Restoration Drama and happily began a college career that grew happier year by year. Indeed, it became altogether ecstatic in his senior year because Leonid met a coed named Anna Livia Plurabelle with hair like beaten gold and eyes like two sockets full of Lake Louise. Love gripped them in its big moist palm, and they were betrothed on St. Crispin's Day.

Happily they made plans to be married immediately after commencement—plans, alas, that were never to come to fruition because Leonid, alas, learned that Anna Livia, like himself, was in college on a student loan, which meant that he not only had to repay his own loan after graduation but also Anna Livia's and the job, alas, that was waiting for Leonid at the Butte Otter Works simply did not pay enough, alas, to cover both loans, plus rent and food and clothing and television repairs.

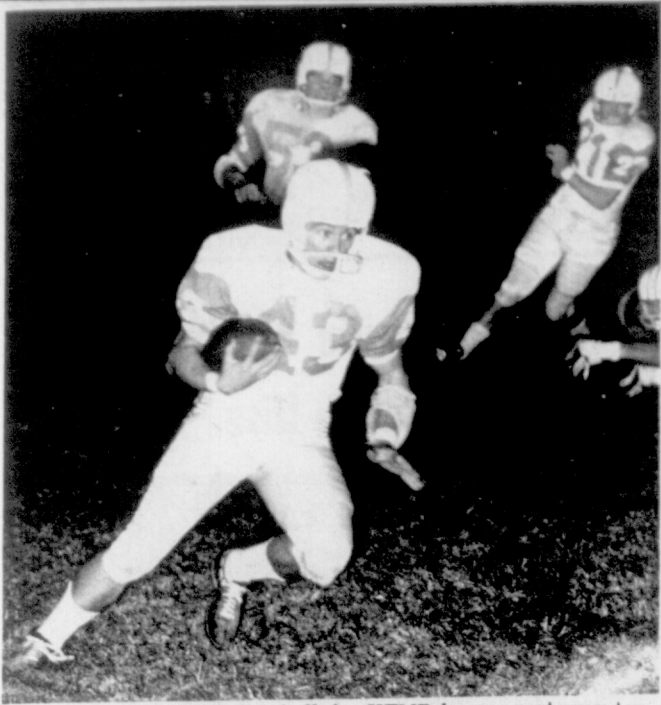

Heavy hearted, Leonid and Anna Livia sat down and lit Marlboro Cigarettes and tried to find an answer to their problem—and, sure enough, they did! I do not know whether or not Marlboro Cigarettes helped them find an answer; all I know is that Marlboros taste good and look good and filter good, and when the clouds gather and the world is black as the pit from pole to pole, it is a heap of comfort and satisfaction to be sure that Marlboros will always provide the same easy pleasure, the same unstinting tobacco flavor, in all times and climes and conditions. That's all I know.

Leonid and Anna Livia, I say, did find an answer—a very simple one. If their student loans did not come due until they left school, why then they just wouldn't leave school! So after receiving their bachelor's degrees, they re-enrolled and took master's degrees. After that they took doctor's degrees—loads and loads of them—until today Leonid and Anna Livia, both aged 87, both still in school, hold doctorates in Philosophy, Humane Letters, Jurisprudence, Veterinary Medicine, Civil Engineering, Optometry, Woodpulp, and Dewey Decimals.

Their student loans, at the end of the last fiscal year, amounted to a combined total of nineteen million dollars—a sum which they probably would have found some difficulty in repaying had not the Department of the Interior recently declared them a National Park.

© 1963 Max Shulman

You don't need a student loan—just a little loose change—to grab a pack of smoking pleasure: Marlboros, sold in all fifty states in familiar soft pack and Flip-Top box.

Tom Pickens carries the ball for UTMB in apparent open territory in Saturday's game. Murray won 18-9.

Vols Succumb To Murray In Second Half 19 to 8

Murray State handed the Vols their third defeat of the season last Saturday at Murray, Kentucky, outscoring the Vols in the second half 19-8.

Scores came in the third and fourth quarters. Thoroughbred halfback, Vic Kuku, raced a 21 yard TD after MSC had marched 65 yards upon the opening kickoff. Charlie Forrest, quarterback and kicking ace, took the extra point. The second third quarter score came when Tony Fioravanti, starting quarterback, rolled around left end for the 19-yard clincher. The kick failed.

In the fourth quarter, Tom Glover, fullback, added insurance by crashing three yards for the final Murray score. UTMB, who had their backs against the wall most of the game, came out in the fourth quarter for a 1-yard score by Gene

Brodie after Howard Finley had carried the ball to the goal-line. Finley also got the two extra points.

Next week, the Vols travel to Delta State to tackle the Statesmen Saturday night. Hopes are high that several fans can make the trip.

Male And Female Co-eds Saluting

If you happen to meet a male student and a coed saluting each other on campus, the Military Department says don't be too surprised.

The background of saluting is a custom of the army that was originated in the days of chivalry. The practice of saluting ladies, though not practices, is permissible in the military.

The University of Tennessee Martin Branch cadre and crop of cadets have started the practice of saluting the sponsors both in and out of uniform. The practice appears here for the first time.

Twenty-Three Out For Basketball

Twenty-three boys reported for basketball practice October 19 in preparation for the new season opening November 30.

The squad now consists of eight returnees, five transfers and four freshmen. Five others have recently joined the squad.

Larry Powers, Dolph Larimer, Johnny Williams and Ronnie Armstrong lead the list of returnees along with Joe Pollock, Wally Hoffman, Buddy Sasser and Jerry Rawls. The new men are looking good these first few days of practice, according to head coach Floyd Burdette. Prospects are high for a good season next year.

Women Assigned To Color Teams

BY VENDA POOLE

Intramurals are getting into full swing.

All regularly enrolled women students are being assigned to one of the eight color teams. These team assignments will be posted in the old gym Tuesday, October 22. Women be sure to check which team you are on and also the intramural captain of your team.

Captains for the eight teams are as follows:

Dianne Wyatt, Green; Harriett Grabel, Black; Betty Webb, Yellow; Linda Rogers, Blue; Kay Roberts, Brown; Betty Blades, White; Carol Warmbrod, Red; Terry Culva-house, Orange.

Fall quarter competition will begin soon in the areas of volleyball, archery and table tennis. Every woman on campus will have an opportunity to engage in one or more of the activities.

Notices concerning these activities will be put in your mailbox; the team captains will visit you, and notices will be posted on bulletin boards in the gym.

Remember- Intramurals are for everyone. You need no great skill or ability to participate so come on and join the fun!

Grenadiers Club Serves At Concession Stands

The Grenadiers Club has been in charge of the football concessions during the last three home games.

The Drill Team has received an informal invitation to participate in the Banana Festival November 9 at Fulton, Ky.

There are approximately 30 members in this year's Grenadiers Club. Miss Gail Parks of Dresden is sponsor. She will participate in all the activities.
